Kickstarter -	Brushes	for	Miniature	Painting

Posted by Feymous - 2013/02/16 10:22

There have been a slew of Kickstarters lately for miniatures. I know many DF forum members have backed these and in particular that some of you have a ton of minis coming your way when the Reaper Bones ship. As such, I thought some people may be interested in the Games & Gears Kickstarter for miniature painting brushes.

I don't own any brushes from this company, so I can't attest to the quality. However, the kolinsky sable brushes I do own are my favorites, so I decided to give it a shot. Assuming the quality of these brushes is comparable to a Winsor Newton brush this is a really good price. Plus dual-headed brushes is a great idea!

Feymous,

Great find! I'd also like for our resident experts to comment on how useful double headed brushes can be and the quality of materials being used.

The pledge tree seems like a great deal, especially at the 120pounds level.

Any feedback is appreciated.
