Shipping Posted by chrisbonnet - 2013/10/16 19:58 Well done, I would like to say thanks for such a well ran endeavor. I am a new customer will be a life long one. My main regret is not getting more:). I haven't received mine yet but I am very happy that I helped crowd source this. One of my friends went in for 1.5 k, I am very envious of him. Well done!
